## **CPS MENUBOARD D5P 46 - 65**"

## comPROnents® complete solution

The CPS Menuboard D5P 46 - 65" is a system for ceiling mounting.

The system is suitable for five screens between 46 - 65" | 117 - 165 cm screen diagonal, which are mounted side-by-side.

The screens are mounted in portrait orientation.

The VESA mounts can be fitted with up to VESA 400 x 600 mm max, and can also be tilted from -5° to +15°.

The total width of the system is 3409 mm. This can be shortened if necessary.

Cables are routed via cable clips on the rails.

The surfaces of the individual components are protected by an impact and scratch resistant powder coating in black.

The maximum load per screen is 40 kg.

The complete solution can be combined and extended with the components of the comPROnents® series without restriction and thus offer further application possibilities.

Adaptable thanks to modular design

VESA max. 400 x 600 mm
