

WH Synchron HD 55 - 75"

Heavy-duty wall mount for precise alignment and easy installation

Item no.: 8432

The WH Synchron HD 55 - 75" is a tiltable heavy-duty wall mount that impresses with its well thought out design and high functionality. Supplied largely pre assembled, it enables time saving and uncomplicated installation.

A key feature is its precise fine adjustment. The tilt can be adjusted exactly by $\pm 7.5^\circ$, while the depth and height can each be adjusted by ± 15 mm. This allows the screen to be optimally aligned, regardless of the spatial conditions or individual requirements.

The robust construction makes the bracket ideal for holding large and heavy screens with a size of 55 to 75" (140 - 191 cm) and a maximum weight of up to 150 kg.

It is compatible with VESA standards from min. 200 x 200 mm to max. 600 x 600 mm. The variable wall distance between 95 mm and 125 mm contributes to the adaptability of the mount.

Screens can be mounted in landscape format. Integrated cable clips on the back ensure efficient cable management. The high quality black powder coating, which is solvent free and impact and scratch resistant, guarantees a long lasting and resistant surface.

Precision, resilience and user-friendliness combined in a single product. The ideal solution for professional applications that place the highest demands on stability and flexibility.
