

## PLD Single HD Portrait

### Heavy-duty ceiling mount

**Item no.: 2701**

The PLD Single HD Portrait is a heavy-duty ceiling mount with a double carrier. It is suitable for screens with 75 - 100" | 191 - 254 cm screen diagonal.

The installation takes place in landscape format.

The TV holding fixture is included and supports screens with a VESA standard up to max. 600 x 900 mm. The VESA arms can also be tilted continuously between -5° and +15°.

The mount is height adjustable up to max. 1450 mm with tools.

The cables are routed internally, hidden from view and unauthorized access.

The included plastic cover ensures that the ceiling screw connection disappears unobtrusively underneath. If necessary, it can be released.

The surfaces of the PLD Single HD Portrait are finished with an impact- and scratch-resistant powder coating in black.

The max. load is 100 kg.
