

CPS FLOORSTAND DUAL 55 - 65"

comPROnents[®] complete solution

Item no.: 3326

The CPS FLOORSTAND DUAL 55 - 65" is a stand system. Two screens with a screen size between 55 - 65" | 140 - 165 cm find their place next to each other (side-by-side).

The VESA standard is covered up to max. VESA 800 x 400 mm, and the VESA mounts can also be tilted from -5° to +15°.

Adjustable feet enable precise alignment even on uneven floor surfaces.

The Rails are height-adjustable along the Alu Pillars and thus offer flexible mounting options, adapted to the respective room situation.

Alu Pillars and Rails can be shortened if necessary.

Cables are routed along the rear of the rails and pillars using cable clips and thus remain out of sight.

The surfaces of the individual components are protected by an impact and scratch resistant powder coating.

The maximum load per screen is 50 kg.

The complete solutions can be combined and extended with the components of the comPROnents[®] series without restriction and thus offer further application possibilities.

adjustable feet

VESA arms, -5° / +15° tiltable

cable management along the rails and along the columns

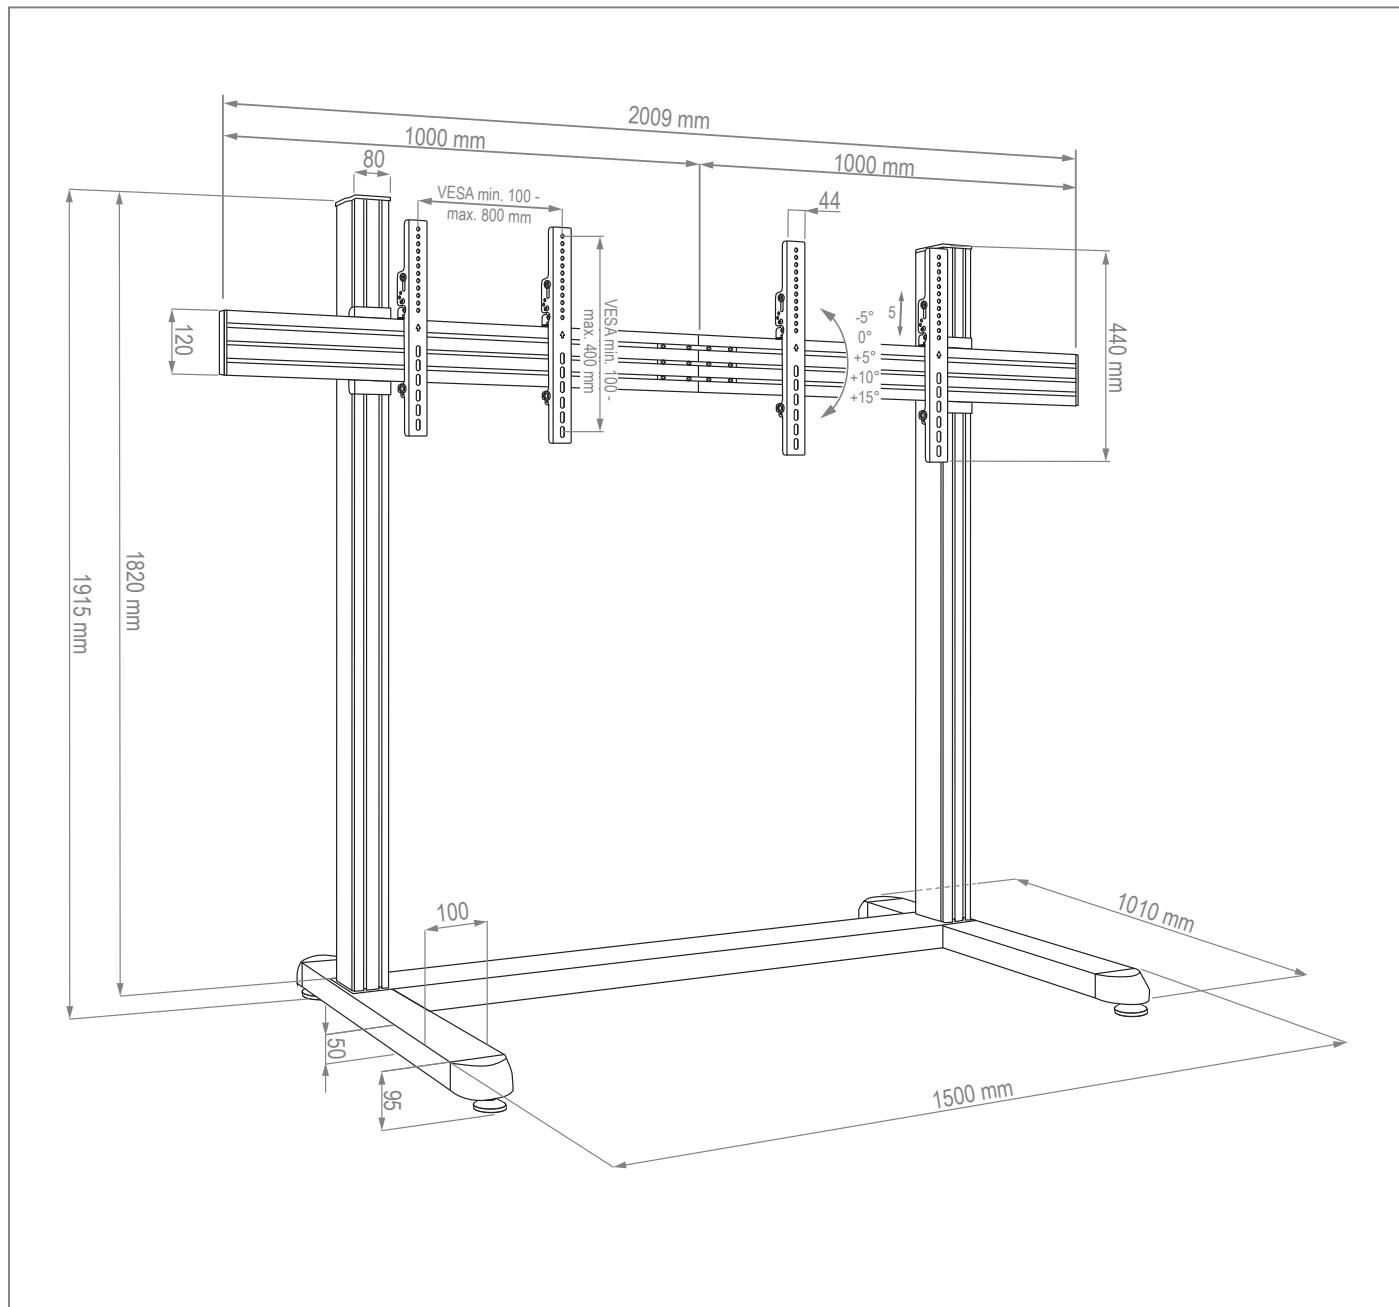

CPS FLOORSTAND DUAL 55 - 65"

comPROnents[®] complete solution

Item no.: 3326

- for 2 screens „side-by-side“
- 2x 55 - 65" | 140 - 165 cm
- Landscape
- VESA max. 800 x 400 mm, -5° to +15° tilttable
