

CPS Mobile Stand Single 86 - 110"

comPROnents[®] complete solution

The CPS Mobile Stand Single 86 - 110" is a mobile stand system for screens with a screen size between 86 - 110" | 218 - 279 cm.

The VESA standard is covered from min. 200 x 200 mm up to max. 1500 x 800 mm.

The castors provide the necessary mobility and have locking brakes, which allows them to be securely fixed in the desired location.

The Rails are height-adjustable along the Alu Pillars and thus offer flexible mounting options, adapted to the respective room situation.

Alu Pillars and Rails can be shortened if necessary.

Cables are routed along the rear of the rails and pillars using cable clips and thus remain out of sight.

The surfaces of the individual components are protected by an impact and scratch resistant powder coating.

The maximum load per screen is 130 kg.

The complete solutions can be combined and extended with the components of the comPROnents[®] series without restriction and thus offer further application possibilities.

Cable management along the rails / pillars

VESA, min. 200 x 200 mm - max. 1500 x 800 mm

castors with locking brakes

CPS Mobile Stand Single 86 - 110"
