

## CPS FROM WALL BACK-2-BACK 42 - 55"

Item no.: 3334

### comPROnents<sup>®</sup> complete solution

The CPS From Wall Back-2-Back 42 - 55" is a wall mounted system.

It allows two screen (back-to-back) to be installed from the wall into the room (90°, orthogonal).

The bracket is therefore ideal for mounting on pillars and walls in direction of travel.

The system is suitable for screens between 42 - 55" | 107 - 140 cm screen diagonal.

The VESA mount can be fitted up to 400 x 400 mm max. and can also be tilted from -5° to +15°.

The screens can be mounted in portrait orientation.

The total width is 709 mm. This can be shortened if required.

Cables are routed along the rear of the rail by cable clips and thus remain out of sight.

The surfaces of the components are protected by an impact and scratch resistant powder coating in black.

The maximum load is 30 kg per screen.

The complete solution can be combined and extended with the components of the comPROnents<sup>®</sup> series without restriction and thus offer further application possibilities.

Installation from the wall into the room

VESA 400 x 400 mm

Cable management along the rails by clips

## CPS FROM WALL BACK-2-BACK 42 - 55"

Item no.: 3334

### comPROnents<sup>®</sup> complete solution

- System for wall mounting
- enables the installation of two screens from the wall into the room
- ideal for mounting on pillars and walls for a large advertising impact in the direction of travel
- 2x 42 - 55" | 107 - 140 cm | back-to-back
- VESA up to max. 400 x 400 mm
- Portrait
- VESA mount can be tilted from -5° to +15°
- Cable routing via cable clips on the rail
- 30 kg max. load per screen
- 709 mm total width - can be shortened if required
- colour: black
- combinable & expandable with comPROnents<sup>®</sup> series
