

## CPS Wallmount Samsung QH115

### comPROnents<sup>®</sup> complete solution

**Item no.: 3363**

The CPS Wallmount Samsung QH115 is a wallmount for screens. It is specially suitable for Samsung QH115 screens with a diagonal of 115" | 292 cm.

The fixed VESA arms can accommodate screens from a minimum of 400 x 400 mm to a maximum of 1000 x 800 mm. The standard format is landscape. To mount the screen in portrait format, an optional adapter is required.

The mount has a depth of only 70 mm which is particularly noteworthy. This minimal space requirements greatly facilitates use in confined installation situations (e.g., a shop window).

The overall width of the system is 1209 mm. This can be shortened if necessary.

Cables are routed via cable clips along the rails, keeping them tidy and out of sight.

The surfaces of the components are protected by a solvent free, impact and scratch resistant powder coating in black.

The maximum load capacity is 100 kg.

The complete solution can be combined and extended with the components of the comPROnents<sup>®</sup> series without restriction and thus offer further application possibilities.

An adapter is required for portrait installation -  
VESA adapter 800 900 1000 | Item no.: 5083

Cable management along the rails

Adaptable thanks to modular design
