

# CPS Mobile Stand Samsung QH115

## comPROnents<sup>®</sup> complete solution

Item no.: 3357

The CPS Mobile Stand Samsung QH115 is a mobile stand system. It is suitable for Samsung QH115 screens with a screen size of 115" | 292 cm.

The VESA standard is covered from min. 200 x 200 mm up to max. 1200 x 800 mm and can in addition be extended with an optional adapter.

The castors provide the necessary mobility and have locking brakes, which allows them to be securely fixed in the desired location.

The Rails are height-adjustable along the Alu Pillars and thus offer flexible mounting options, adapted to the respective room situation.

Alu Pillars and Rails can be shortened if necessary.

Cables are routed along the rear of the rails and pillars using cable clips and thus remain out of sight.

The surfaces of the individual components are protected by a solvent free, impact and scratch resistant powder coating in black.

The maximum load is 130 kg.

The complete solutions can be combined and extended with the components of the comPROnents<sup>®</sup> series without restriction and thus offer further application possibilities.

Cable management along the rails / pillars

castors with locking brakes

An adapter is required for portrait installation -  
VESA adapter 800 900 1000 | Item no.: 5083
