

CPS Freestanding Samsung QH115 comPROnents[®] complete solution

Item no.: 3359

The CPS Freestanding Samsung QH115 is a free-standing stand system. It is suitable for Samsung QH115 screens with a screen size of 115" | 292 cm.

The VESA standard is covered from min. 200 x 200 mm up to max. 1200 x 800 mm and can in addition be extended with an optional adapter.

Adjustable feet enable precise alignment even on uneven floor surfaces.

The Rails are height-adjustable along the Alu Pillars and thus offer flexible mounting options, adapted to the respective room situation.

Alu Pillars and Rails can be shortened if necessary.

Cables are routed along the rear of the rails and pillars using cable clips and thus remain out of sight.

The surfaces of the individual components are protected by a solvent free, impact and scratch resistant powder coating in black.

The maximum load is 150 kg.

The complete solutions can be combined and extended with the components of the comPROnents[®] series without restriction and thus offer further application possibilities.

Cable management along the rails / pillars

Adjustable feet for precise alignment

An adapter is required for portrait installation -
VESA adapter 800 900 1000 | Item no.: 5083
