

CPS Mobile Stand Single 75 - 86"

comPROnents[®] complete solution

Item no.: 3360

The CPS Mobile Stand Single 75 - 86" is a mobile stand system. It is suitable for screens with a size from 75 - 86" | 191 - 218 cm.

The universal VESA standard is covered from minimum 200 x 200 mm and maximum 900 x 800 mm.

Thanks to the castors, which is equipped with locking brakes, the system can be securely fixed in place at the desired location.

The rails are height-adjustable along the aluminium pillar (Tool needed), offering flexible mounting options tailored to the respective room situation.

The aluminium pillar and rails can be shortened if necessary.

Cables are routed along the back of the rails and pillar using cable clips, keeping them out of sight.

The surfaces of the components are protected by a solvent free, impact and scratch resistant powder coating in black.

The maximum load capacity is 70 kg.

The complete solutions can be combined and extended with the components of the comPROnents[®] series without restriction and thus offer further application possibilities.

CPS Mobile Stand Single 75 - 86"

comPROnents[®] complete solution

Item no.: 3360
