

ST SA Flip II 55"

Item no.: 5787

Mobile stand system display specific for Samsung WM55H / WM55R / WM55B

Fix ideas, professional brainstorming, record and share results. With the ST SA Flip II 55" you can fully exhaust the potential of the Samsung WM55H / WM55R / WM55B.

The mobile stand system allows the digital flipchart to be rotated from portrait to landscape format and vice versa at any time. Thanks to the ingenious spring mechanism, rotation is possible with almost no effort.

The mount engages in the desired end position and can be set in motion again almost effortlessly without the need for unlocking.

In addition, the holder can be inclined by 0° / ±3° / ±5° - the inclination levels can be adjusted on the assembly side.

The system can be moved easily and safely from room to room thanks to the high quality castors attached to the stand system. The castors with lock-type brake also ensure a safe stand at the desired place.

The included shelf can be used optionally and can be mounted in 2 positions. It offers a practical storage place below the Samsung Flip.

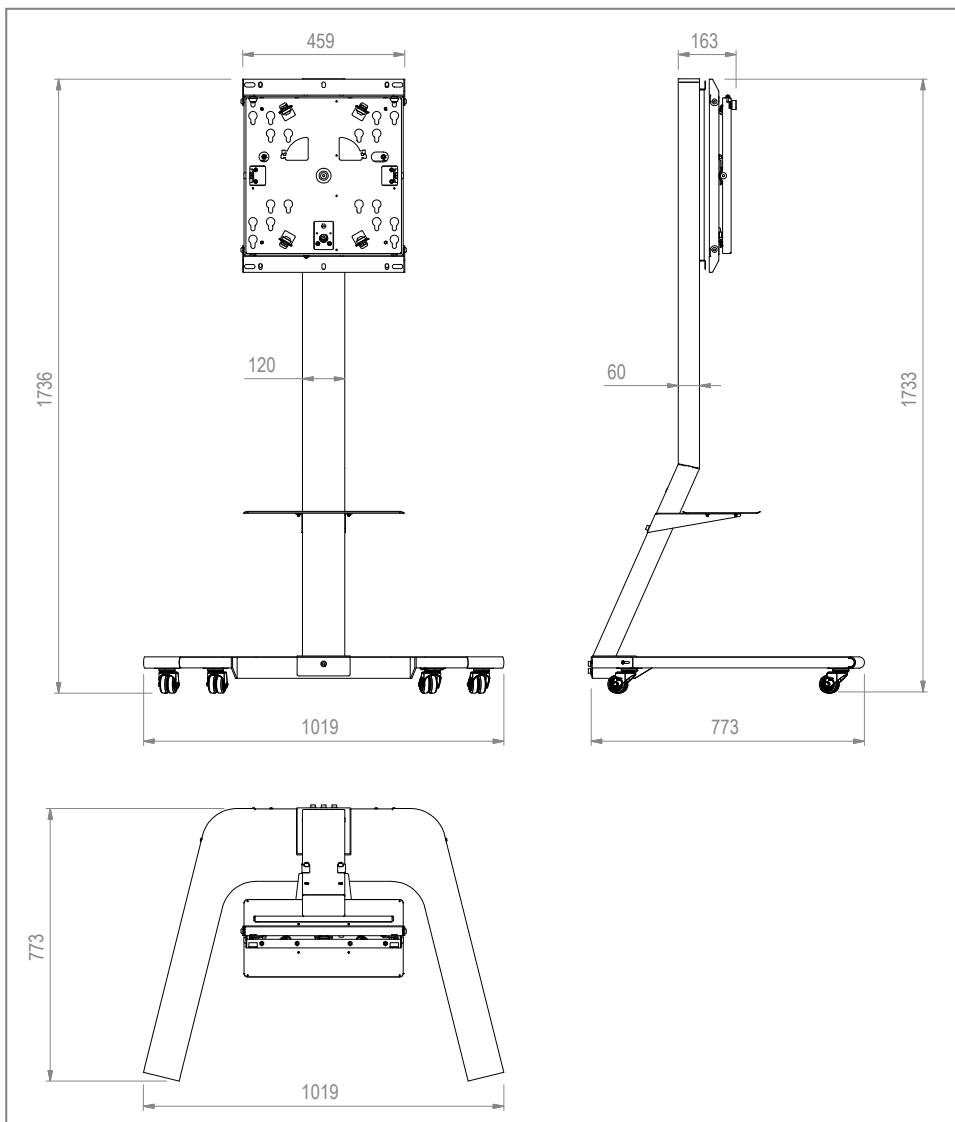

ST SA Flip II 55"

Item no.: 5787

Mobile stand system display specific for Samsung WM55H / WM55R / WM55B

- display specific for Samsung WM55H / WM55R / WM55B
