

TEAM VIDEO COLLABORATION

**ENABLE EVERY ROOM.
ENABLE EVERY PERSON.**

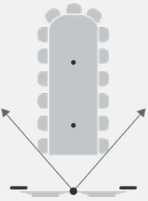

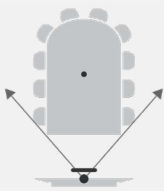

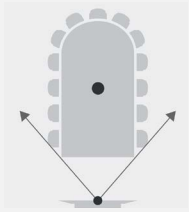

The Logitech ConferenceCam lineup provides high quality video and audio to work with your video conferencing software of choice. From huddle rooms, to private offices, to conference rooms, any space can be a video-enabled collaboration space.

QUALITY, SIMPLICITY, AND AFFORDABILITY

Logitech® ConferenceCams offer high-definition video, crystal clear audio and easy integration with your video conferencing solutions. Any meeting place can be a video conferencing space, from huddle rooms to large meeting rooms—even for multipurpose rooms.

Logitech enables amazingly affordable, seamless video meetings that are the next best thing to being there in person. With forward-thinking vision, Logitech innovates continuously to bring together the latest advancements in technology with customer-centric design. Logitech RightSense™¹ proactive technologies enable a near effortless video meeting experience where everyone can be seen and heard. With RightSight™ camera control to frame in participants, RightLight™ optimization for more natural-looking faces, and RightSound™ voice leveling and noise suppression, video meetings are made better automatically.
